## Finishing

Luxwood finishes are created with both beauty and longevity in mind. Our furniture undergoes a minimum of a 6 step finishing process that allows the natural splendor of the wood to shine through while protecting it from scuffs, dents, moisture and household chemicals. Our finish choices allow you to create anything from a clear, natural wood look to a one-of-a-kind weathered heirloom appearance.

## Character Finish

These artful combinations of durable finishing and authentic hand craftsmanship create beautiful aged-looking finishes. Each of our distressed finishes begin with one of our standard stain colors. It is accented with a variety of character effects and complimented by a hand-rubbed glaze in a flat sheen topcoat. Different looks are achieved by combining various effects.

## STANDARD DISTRESSING

### Our Standard Distressing Includes:

*Worm Holes* - A specific type of physical distressing that mimics naturally produced worm holes seen in old wood.

*Round-Over* - Light sanding over corners and edges to soften them, creating an aged and weathered appearance.

*Hand Rubbed Glazes* - An added layer of beauty that accents your furniture's character marks. The glaze leaves a delicate coating over the entire surface. It adheres more visibly to corners, profile edges and detail areas

*Conversion Varnish* - High quality conversion varnish top coat.

## OLD WORLD DISTRESSING

Our Old World Distressing Includes:

*Worm Holes, Round-Over, Hand Rubbed Glazes & Conversion Varnish*

*Artist's Marks* - Impacting the furniture surface with various tools to reproduce wear, split marks, and other signs of age and weather.

*Simulated Cracks* - Marks get cut into the wood in various ways as to simulate loose joints and splits in the wood.

*Natural Character* - Small knots, mineral and sap may be left in the wood to add to the beauty of this aged look.

*Burnished Edges* - Certain edges get lightly burnished to help create that old darkened, worn edge look.

All Ohio Certified Stain Colors are Available.
